

SD

stephanie darlene

breathe. love. make things.

I create illustrations that capture the beauty and essence of living things to encourage others to take notice of their everyday surroundings and live a mindful life.

I enjoy licensing my artwork on home decor, gift and stationery items, because I believe life feels lighter and brighter when surrounded by beautiful things.

I also exhibit in local galleries and make my artwork accessible by selling prints and cards at art fairs and in my online shop.
